## **“Second Opinion” Services**

Anytime there is a disagreement or further clarification needed, just ask for a “Second Opinion” with how we have interpreted a regulation or policy regarding a zoning matter. While we are legally responsible to apply the zoning code and development regulations to ensure quality and safe development, Planning staff wants to make sure complete and clear information has been given to minimize any frustration. Our commitment is one of open communication designed to ensure the highest quality of entitlement processing, plan checking, code interpretation, and neighborhood preservation.
